Rubén Salvador Edo
ANALOG DEVICES

He is a digital integrated circuit designer at Analog Devices. He graduated in Telecommunications Engineering from UPV in 2007 and obtained a Master's Degree in Electronic Systems Engineering from UPV in 2009.

He joined Analog Devices, Limerick, in 2007 to work on video processing chips. In 2009 he joined Analog Devices, Valencia, to design IoT ICs and low power sensors. His interests include ultra-low power digital design and digital signal processing.
